## 7. AMOUNT OF GRANTS

ASSUR will cover the following:

- **Subsistence Allowance**
- **Insurance Coverage (health, travel, accident)**
- **Travel expenses for one economy class return ticket, and direct visa costs**
- **Participation costs (if applicable)**

### 7.1. Subsistence Allowance

A scholarship agreement that defines all the conditions, benefits and responsibilities related with the project implementation as well as the schedule of payments covered by the scholarships will be signed by each institution, the scholarship holder and the coordinating institution. Only after this document is signed it will be possible to transfer the scholarships. Each EU partner must provide to **incoming** scholars the first **two instalments** right after the arrival of the scholar at the host university. For the rest of the mobility, the subsistence allowance will be provided on a regular basis and will be paid monthly to the grantee bank account. Monthly subsistence allowance can only be paid as from the month of arrival and covers each full month of the mobility, based on the academic grounds.

### Type of mobility Subsistence Allowance

- **Undergraduate** 1.000 €/month
- **Master** 1.000 €/month
- **Doctorate** 1.500 €/month
- **Post-Doctorate** 1.800 €/month
- **Academic and Administrative Staff** 2.500€/moth

## 7.2. Insurance Coverage

The coordinating institution will provide directly to each scholarship holder a comprehensive health, travel and personal accidents insurance valid in the host country, in line with the demands of the EACEA – Education, Audiovisual and Culture Executive Agency. This insurance will be valid since the moment and place of departure to the mobility period until the return, when the mobility period is over.

## 7.3. Travel costs

The project's coordination will be the only responsible for booking and paying the grantee's two-way travel ticket between the home University's city and the host University's city having as reference the maximum amounts foreseen by the EACEA for each travel. In case the home or host institutions are not located in a city with an international airport, the scholarship holders must keep the invoices of the local transportation such as bus, subway, or train used to undertake the travel, so as to be able to submit a reimbursement request to the coordination. This request should be made as soon as possible, in a proper form that will be available online and that should be accompanied by the scanned invoices. The original documents must be sent by the host institution to the coordinating institution that will analyse the possibility of reimbursement. In case of long stays (more than 10 months) it will not be possible to buy the return ticket immediately. Therefore, all reimbursement requests will be put on hold until the coordinating institution can buy the return ticket and use the leftovers to reimburse other travel expenses. Taxi expenses are strongly discouraged. The coordination will carefully analyse each expense, not considering eligible taxi expenses between cities if there is other less expensive means of transportations. All the reimbursements will be made considering the exchange rate to the day in which the expenses were done. In case the scholarship holders wants to change the flight dates for individual purposes this may be allowed as long as the return date is not before the foreseen ending date of the programme of activities/mobility. All changes should be paid by the scholarship holder and not by the project. Please note that it will not be possible to reimburse neither any accommodation expenses nor a vacation travel to the grantee's home country.

Return travels of the scholarship holders with duration above 10 months will be booked by the coordination at least six months before the return date. Travels will be purchased based on the ending dates communicated by the host institutions and after receiving the approval of the scholarship holders. If there is any need to change the travel afterwards, the coordination will not be able to pay those costs, so each scholarship holder must assure together with the host institution that (s)he finishes all the activities in due time.

The following unit costs are **applied for travel costs, including airfares and visa related costs**, for the direct/linear distance ("as the crow flies"):

- For **Target Group 1** on one side the location of the sending HEI and on the other side the hosting HEI premises;
- For **Target Group 2** on one side the location of origin of the student/staff and on the other side the hosting HEI premises;
- For **Target Group 3** the location of residence of the student and on the other side the hosting HEI premises.

Distance (km)	Maximum amount (€)
< 500	250
500 – 1.000	500
1.000 – 1.500	750
1.500 – 2.500	1000
2.500 – 5.000	1500
5.000 – 10.000	2000
> 10.000	2500

For distance calculations, please refer to <http://www.mapcrow.info>

## 8. DURATION OF THE MOBILITIES

Undergraduate and Master exchange:	10 months
Master degree:	20 months
Doctorate exchange:	10 months
Post-doctorate:	6 months
Staff:	1 month

### FURTHERMORE

- For **Undergraduate and Master exchange students** the exact duration of stay always corresponds to the academic calendar at the host university, i.e. duration of academic activities carried out at the host university. Academic activities contribute to the academic success achieved at the host university (orientation programme, taking courses, studying for exams, doing research etc.)

All scholars must check by themselves the exact duration of their mobility (mobility start and end date) according to the academic calendar<sup>1</sup> at the respective host university.

- All **Doctorate exchange students and Post Doc** scholars are responsible for negotiating the exact time frame of their mobility with the home and host university<sup>2</sup>.

- The exact duration of mobility for **Master degree seeking students** is determined by the official duration/length of the study programme they are registered in at the host university. All scholars must check by themselves the exact duration of their mobility, i.e. the official start & end date as well as the length of the study programme (according to the respective curriculum)<sup>3</sup>.

- All **staff scholars** need to stay at the host universities for one month. Only in justified cases this duration can be reduced by a few days. Staff scholars also have the opportunity to split their mobility into 2x2 weeks. All staff scholars are responsible for negotiating the exact time frame of their mobility with their respective home and host universities<sup>4</sup>.

<sup>1</sup> Undergraduate and Master students need to start their mobility at the beginning of the academic year

<sup>2</sup> Doctorate exchange students and PostDoc scholars may start their mobility anytime between September 2016 and December 31<sup>st</sup>, 2016

#### **Please note: Applicants belonging to Target Group 3:**

- will be taken into special consideration in the context of the promotion and selection procedure and receive special support by the consortium.
- they must upload a document proving that they find themselves in a vulnerable situation.

It is the responsibility of the applicant that all obligatory documents are uploaded.

Applicants are requested to upload scanned versions of all original documents (transcript of records, diploma, degree certificates, language certificates etc.). In addition, scanned versions of official translations of all these documents into English or the language of the host country are obligatory.

All selected scholars are advised to check with their host universities if there are specific deadlines for submitting original documents. Admission criteria of all partner institutions in the consortium have to be respected. All applicants need to check the general information sheet of the respective host university.

In case applicants do not have all required degree certificate at the end of the call (e.g. they don't have obtained their degree yet, but will obtain it before the mobility starts), a **certificate confirming the expected date of graduation, which must be before the foreseen starting date of the mobility**, must be issued by home university, dated, signed and stamped, otherwise it will not be considered valid and the application will be immediately excluded. Ensure that the **Learning / Research / Work Agreement is objective and specific** concerning its methodology and viability, impact and benefit, as well as the capacity of attaining the project's purposes within the timeframe established by the duration of the scholarship. 9.1.6. Start filling in the application straightaway at <http://ema2univag-assur.it> Only after completing step 1 you will they receive your login (which is your e-mail address) and auto-generated password. Then you need to log in (step 2) and then you can continue to fill in the application.

## 9.2. Online Submission

To fill in the Application Form, the following steps must be considered:

- The applicants should have a valid e-mail address and an Internet connection.  
⇒ Only **online applications are considered eligible**.
- The applicants should then fill in the online Application Form available on the project's website. They can save&resume their application. After every saving, they are informed whether all required information is completed, or not.
- Once all required information is filled in, you need to close the application (step 6). After closing the application, no more changes can be done. You will receive an e-mail confirming the submission of the application, which **does not constitute a confirmation of eligibility or of selection**, it just confirms the submission of the application  
⇒ Once the deadline for applications comes, the application cannot be changed any more by applicants.

**The online application form is only available in English.** However, before starting to fill in the Application Form, the applicants must be sure of having all the certificates and language skills required to attend the sought programme(s). Candidates have to submit all supporting documents as described above in 9.1.3.

The **deadline for the submission of the online applications for the Call** is 7th February 2016 at 11.59 p.m. and has as reference the Central European Time (CET). The Coordination Office will do everything possible to avoid system failures but cannot assume any responsibility if it is not possible to submit the application in the

very last minutes before the deadline. Applicants must avoid the last minute applications so as to guarantee there will be no problems in the submission of the application form. It is reminded to all candidates that **applications sent by mail, fax or e-mail will not be accepted.**

Please include a **valid e-mail address** in your application for communication purposes. Do not include in the application form the e-mail of another colleague or friend that is also applying as the communication of results will be done exclusively by e-mail and this could generate problems in interpreting the selection results. The applicants should only have one valid application at the beginning of the selection procedure. Being so, if the same applicant submits several online forms, all of them will be disregarded.

In the case of **applications to master and doctorate mobility scholarships**, we recommend the applicants to request the cooperation of a **home institution's professor** who supports them in the preparation of the application. Such support will allow an easier selection of the host institution where the research can be carried out and the mobility project is more feasible. Simultaneously, the home institution's contact will help the applicants to ensure the quality of the working/study plan, guaranteeing a well structured project that puts together the applicants interests and the priorities of scientific research and local technologies.

### **9.3. Documents to be submitted by the applicants**

The applicants should submit, in the online application, a digital copy of several documents described in section 9.1.3.

#### **Please Note:**

- If a candidate fails to upload mandatory documents, the application will be excluded without any possibility of appeal.
- **incomplete applications or with blank or unreadable documents will not be considered eligible and will immediately be disregarded.**

An applicant can upload several files at the same time. Only PDF files are accepted. If more than one document needs to be uploaded in one file, the scanings should all be combined into one file.

## **10. EVALUATION AND SELECTION OF APPLICATIONS**

All valid applications received will be included as read-only documents in a protected database. All the legal requisites concerning the manipulation of personal data will be observed and it will always be kept confidentiality of the information submitted online. The database will only be accessed and revised by authorized persons in the home and host institutions who have an access code. This is also the case of the offices of the Coordination Office, the technical experts that will participate in the evaluation process.

### **a) Eligibility check**

#### **- Target 1 Candidates:**

During the selection period, the Local Management Team (LMT) at the home university will be in charge of checking eligibility by reviewing the submitted applications of its students and staff belonging to TG 1. It will take responsibility and guarantee that applicants have proper documents in place to ensure that the exchange period at the host university is recognized and constitutes part of the student's study record at the home university (Learning Agreement, ECTS, Transcript of Records, and Diploma supplement when applicable). The LMT at the home university will also check the eligibility of the applicant in relation to the EM Action 2 eligibility criteria as well as clarify whether the applicant is registered at or employed by the home university (Target Group 1) and review, check completeness and authenticity of attached documents, check whether the documents have been correctly translated, and validate applications of their outgoing students/staff belonging

to Target Group 1. In case applications are formally not correct and therefore cannot be accepted, reasons for rejection have to be clearly justified.

- Target 2 and Target 3 Candidates:

For TG 2 and TG 3 applications, the project co-coordinator is responsible for checking the completeness of uploaded documents, whether the eligibility requirements are met, and consequently for validating the applications.

In case applications are not accepted, reasons for rejection have to be clearly justified.

**b) Ranking procedure**

Eligible applications will then be reviewed and ranked by the **LMT at the host university**, which guarantees an absence of conflict of interest as well as that students and staff will be selected in a manner respecting principles of transparency and equal treatment. The LMT of host institution will review the applications, check if the admission and language requirements are fulfilled, find an adequate academic solution for the selected applicants and rank the applications.

In case applications are not accepted by the LMT at the host university, reasons for rejection have to be justified.

**c) Ranking criteria**

The selection will be based on the following criteria:

<b>Undergraduate/Master</b>	<b>PhD</b>
60% Academic achievement	35% Scientific achievement
25% Motivation	35% Proposed research project
15% Language Skills	15% Motivation
	15% Language Skills
<b>Post-Doc</b>	<b>Staff</b>
35% Research production / Teaching experience	35% previous experience
35% Proposed research project	35% Work Plan
15% Motivation	15% Motivation
15% Language Skills	15% Language Skills

In order to evaluate the Language credentials' reliability, candidates can be subject of verification by partners formally or empirically (eg.: skype interviews with applicants who have not submitted renowned certificates like TOEFL/ IELTS or home university certification).

**d) Selection procedure and allocation of scholarships**

After the ranking procedure has been completed, the allocation of the scholarships will be carried out at the selection committee meeting according to the following criteria:

- ranking result
- fair distribution of host universities
- gender balance

- balance of fields of study
- level of vulnerability (for TG 3)
- commitment to contribute to the network of the consortium (for Post-doctorates and staff)

By the end of April 2016, the consortium will inform applicants about the selection results.

The selected candidates will be requested to accept them by logging in. By accepting the distribution result through the website, the scholar accepts the nomination for a scholarship within the ASSUR project as well as confirms his/her acceptance of the guidelines and pledges to take all the necessary measures to start and complete the mobility successfully and in accordance with all the stipulated administrative and academic requirements.

Not selected applicants will be provided with the opportunity to appeal against the decision **within 10 days from the communication of the results**, by logging in at their account.

All mobility flows of the cohort 2 have to start by December 31<sup>st</sup>, 2016 at the latest (except for staff who can start their mobility any time between September 2016 and Spring 2018).

All partner institutions have nominated a contact person responsible for assisting and counseling potential applicants of their institutions. The official contacts of each institution can be accessed on the site, in the **Contacts** section.

It is strongly recommended to regularly consult the **e-mail address** indicated in the application form, as this will be the **only means of communication between the applicant and the coordination**.
